

RUSSIAN NATIONAL JUNIOR WATER PRIZE

Since 2003

By support of the Ministry of Natural Resources and Ecology of the Russian Federation and State Program for NGOs participating in civil society development.

Organizer – autonomous noncommercial organization “Environmental Projects Consulting Institute”, director - Dr. Natalia Davydova, leader of the Contest.

Chairman of the National Nomination Committee – Prof., Dr. A.N. Kosarikov, Honored scientist of the Russian Federation, State Prize Laureate.

The Contest is a part of a Russian National Priority Project “Education”.

Objective of the Contest – organization of independent public creative contest among high school students for the best project in the area of protection and restoration of water resources. The contest stimulates creative activities of high school students focusing on problems of drinking water sector, treatment of waste waters, preservation of biodiversity in urban and rural fresh water reservoirs, and studies of correlation of water-related, climatic and other factors.

The contest consists of four stages:

- Municipal stages (carrying out and drawing up of the projects)
- Regional stages (at the level of the regions of the Russian Federation);
- National stage (All-Russia final);
- International stage - participation in Stockholm Junior Water Prize. This annual international event takes place in Stockholm, under patronage of Crown princess of Sweden.

2005	677	21	297	27
2006	1634	49	1105	41
2007	1589	54	815	49
2008	1529	55	941	62
2009	1852	64	1280	65
2010	2322	71	1587	69
2011	2188	72	1521	70
2012	2152	73	1680	75
Total for 10 years	15895	79	10333	513

Coca-Cola Hellenic is one of the world's largest bottler of products under the trademark of The Coca-Cola Company. Coca-Cola Hellenic operates in 28 countries and is Europe's leading manufacturer of beverages trademarked by The Coca-Cola Company with sales of more than 2 billion unit cases. The company's head office is situated in Athens, Greece. The company serves a population of approximately 560 million people, and provides over 40,000 jobs.

In Russia Coca-Cola Hellenic is represented by Coca-Cola HBC Eurasia and owns factories in Moscow and the Moscow region, St Petersburg, Orel, Nizhny Novgorod, Samara, Volga, Yekaterinburg, Rostov region, Novosibirsk, Krasnoyarsk and Vladivostok. The company is responsible for the manufacture and sale of both carbonated and non-carbonated soft drinks in Russia, including: Coca-Cola, Coca-Cola Light, Sprite, Fanta, BonAqua mineral water, Nestea ice tea, Powerade isotonic sports drink, Burn energy drink, Schweppes tonic water, kvass Krugka&bochka, and drinks under the label Fruktime. Following the acquisition in April 2005 of "Multon" company, the range of products was expanded to include "Rich"-branded fruit juice, nectar and fruit puree, "Nico" and "Dobriy"-branded fruit juice and nectar, and the "Yasli-sad" line of fruit juices and nectars for infant consumption.

The expansion of the company's product portfolio and the utilisation of new categories of production for the purpose of business development is one of Coca-Cola Hellenic's major business strategies. In Russia the company handles distribution of Brown-Forman Corporation alcoholic beverages.

In recent years Coca-Cola Hellenic has established itself as one of the largest investors among manufacturers of consumer goods. Coca-Cola Hellenic in Russia presently employs approximately 13,000 highly qualified and professionally trained employees.

Detailed information on Coca-Cola Hellenic and the company's activities in Russia is available on the company's website www.coca-colahellenic.ru

Water: from H₂O to IT
